The 5-Minute Tech Health Check

Don't have 10 minutes? Answer these 8 questions in 5.

1. We have a clear vision for how technology supports our company.
2. Staff can easily collaborate whether working in the office or remotely.
3. Our website accurately reflects who we are today.
4. Important business information is backed up regularly and tested.
5. Multi-factor authentication is enabled whenever possible.
6. We are exploring how AI can responsibly support our company.
7. If a key employee were unavailable, someone else could continue their work with minimal disruption.
8. We feel confident our current technology can support our goals over the next three years.

Answered mostly "partially" or "no"? That's normal — most businesses are.
This is a preview of our full 40-question Technology Health Check.

Let's talk about what's next.
